## **Music Festival returning to Concordia**

Last summer, when members of the Concordia community learned that the Clifton-Vining Country Music Festival would not continue, they determined to bring it here.

With such a short preparation time, the talent competition

portion of the event was dropped, and the focus was on finding entertainers. In about eight weeks time, the music festival that John Wray started 15 years before, moved to the Concordia City Park.

The committee met through-

out the past year, and this August the talent portion of the event will return.

The Concordia Music Festival committee recently received a \$500 grant from the Community Foundation for Cloud County.
